EXPERIENCE/PROJECTS

Full Stack Developer – Sta. Clara International Corp.

Jan 2025 - Present

- Developed and deployed full-stack web applications using **Next.js**, **Supabase**, **PostgreSQL**, **Zustand**, and **Mantine**.
- Designed responsive, user-centric interfaces and maintained clean, well-documented code.
- Optimized REST APIs and managed code versioning using Git.
- **Projects:**
 - **Canvassly** – Automated canvassing platform for sourcing and purchasing with real-time collaboration features.
 - **Certify** – Certification management platform with structured learning paths, progress tracking, and verified certificate issuance.

Full Stack Developer – Freelance

Feb 2023 - Nov 2024

- Built scalable, full-stack applications with **React.js**, **Next.js**, **PostgreSQL**, and **Tailwind CSS**.
- Delivered UI-focused features and maintained clean, modular codebases.
- Managed source control using Git and implemented API integrations.
- **Projects:**
 - **HelpYou** – A location-aware web app providing U.S. climate data by state and county.
 - **WebHR** – A web-based HR management system for handling employee records, attendance, and workflows.

TECHNICAL SKILLS
